## **The Purpose of the NMDA SHOW RULES**

NMDA sanctioned shows have been ongoing since 1992 and have been enjoying expanded participation over the years. Judges, Show Committees and Competitors in NMDA sanctioned shows are asked to follow the Show Rules that have been developed over time by the NMDA Board of Directors, Show Chairpersons and opinions/ comments received by Judges, Show Management and Competitors.

The purpose of these Show Rules is to provide a framework for showing Miniature Donkeys that emphasizes the well being/safety of the breed, provides a level playing field between experienced and novice Competitors of all ages, and fosters good sportsmanship.

The experiences and comments received from Judges, Show Committees, and Competitors as well as NMDA's Board of Directors and Show Chairpersons are taken into account when revising The NMDA Show Rules. All experiences, comments and opinions are warmly welcomed and considered as each Competitor is an essential element of making NMDA sanctioned shows the Gold Standard of Miniature Donkey shows.

- A. (See NMDA booklet entitled The Official NMDA Miniature Mediterranean Donkey Breed Standard.)
- B. Donkeys to be shown in hand at the walk and trot. Animals will be judged individually, standing squarely and naturally without resorting to waving hats or throwing dirt/sand that is disruptive to other Competitors in the class. Donkeys are not to be stretched. Competitors may be asked to move a few steps by the Judge and stand by their Donkeys without setting them up. At no time is the Competitor allowed to touch the Donkey below the shoulder or stifle with either hand or foot. In large halter classes the Judge may appoint the Ring Steward or a person from Show Management to help oversee that these Rules are adhered to. Competitors who do not abide by the above will be disqualified from the class even if they may have the winning Donkey.
- C. Donkeys to be judged on the priority of conformation, quality, presence and way of going. Disposition and manners shall also be considered.
- D. Class disqualifications: Cryptorchidism in mature jacks age 3 years and older (a jack with one or both testes undescended), height in excess of 36”, or excessive overbites or underbites that exceed 1/4” will be disqualified with the exception of geldings. Judges must check the teeth/bite on ALL Miniature Donkeys in all halter conformation classes (including geldings). Competitor will show teeth to the Judge (the Judge should not touch the Donkey’s mouth). The Judge shall not place any Miniature Donkey that possess any of these disqualifying traits. Touching the Donkey below the shoulder or stifle with either hand or foot will result in disqualification. Unruly or ill-mannered Donkeys will be excused from the show ring.
- E. General appearance: The Miniature Donkey should be attractive, well balanced, sound, strong and sturdy. The animal should be pleasing to the eye as the various parts blend together in a nicely coupled picture. It should have an alert expression and presence. Jennets to look more feminine and slightly more refined while jacks should be more masculine and stocky.
- F. Donkeys must be serviceable, sound, in good condition and well groomed. Body clipping of young foals is not required, nor is it required for Donkeys of any age especially when the show is held during inclement weather, i.e. winter, early spring, etc.

- G. No whips, crops or other device(s) are allowed in halter classes. Donkeys shall be shown in a leather, rope or nylon halter to be correctly fitted and adjusted for said Donkey with lead rope, leather or nylon lead and chain shank (chain optional except for jacks 2 year old and over). Jacks 2 year old and over must be shown in chain shank rope under chin. Equipment must be humane and in good condition. Silver not to count.
- H. It is in the tradition of the show ring that Competitors be correctly attired for all classes. (See page 11.51. A. Show Attire)

139. Halter- Get of Sire

- A. Three (3) get, either sex, may be shown. Sire need not be present or need “get” be owned by owner of sire. All 3 entries shall be entered under the name of the sire. A separate entry number shall be issued to each group of Donkeys. The entry number is to be placed on the lead Competitor in the group. Emphasis is placed on reproductive likeness, uniformity, quality of breed characteristics and similarity of conformation. More than one set of entries for sire may be entered in the same class. All entries must compete in their respective halter classes in the same show. (See also Rule 138. E, F.)

140. Halter – Produce of Dam

- A. Two (2) produce, either sex, may be shown. Dam need not be present) need produce to be owned by owner of dam. Both entries shall be entered under the name of the dam. A separate entry number shall be issued to each group of Donkeys. The entry number is to be placed on the lead Competitor in the group. Emphasis is placed on reproductive likeness, uniformity, quality of breed characteristics, and similarity of conformation. More than one set of entries for dam may be entered in the same class. All entries must compete in their respective halter classes in the same show. (See Rule 138-E,F.)

Rules 141-150 are unassigned.

151. Game Halter Classes – In-Hand Jumping

- A. All courses for the In-Hand Jumping Class including jump-off courses, must be posted at least two (2) hours prior to the scheduled time for the class. Course diagrams must show with arrows the directions in which each obstacle must be taken. A start and finish line must be established at least twelve (12) feet from the first and last obstacle indicated by two markers at least four (4) feet apart. Donkeys (Competitors optional) must cross the line in the proper

- direction to start and complete the course.
- B. Donkeys must be three (3) years or older to compete in this class. – 3 yrs. old - actual age. (See Rule 21-K.)
  - C. Jumps may be made of PVC piping or wood. PVC is preferred over wood for the safety of the Donkey. All jumps must be at least five (5) feet wide, with a minimum of twenty (20) feet between jumps, with the exception of an in and out. All post and rail jumps must have a ground pole. Side poles (that hold the jump) are not to be higher than three (3) feet.
  - D. Jumpers are to be judged on accumulated faults only on the first round. Minimum height for jumps must be 18” and maximum height 28” for first jumping round. Competitors may go over the jumps with their Donkey. Whips or crops are not permitted. Competitors may wear any type of footwear except open-toed shoes.
  - E. Jumps may include brush, triple bar, water and similar jumps. Brush jump must have a visible bar on top. There will be minimum of four obstacles, with a maximum of eight jumps.
  - F. Scoring: Jumpers are to be scored on a mathematical basis and penalty faults include knockdowns, refusals and elimination as follows:
    - 1) Knockdowns – Each knockdown is 4 faults. An obstacle is considered knocked down when in jumping an obstacle a Donkey or Competitor, by contact, lowers the established height of the jump in any way.
    - 2) Refusals – Each refusal is 3 faults. Stopping at any obstacle without knocking it down and without backing followed by jumping from a standstill is not penalized. However, if the halt continues or if the Donkey backs even a single step, side steps or circles to retake the jump a refusal is incurred.
    - 3) Circling more than once after crossing the starting line is 3 faults. Any form of circle or circles whereby the Donkey crosses its original track between two consecutive obstacles or stops advancing toward or turns away from the next jump except to retake an obstacle after a disobedience.
    - 4) Crossing your own path (as in circling between jumps, not as in retaking a fence from a refusal) is 4 faults.
    - 5) Elimination – 3 refusals, off-course, or fall of the Donkey or Competitor.
  - G. Jump-Offs – In the case of a clean first round and for placement of class, the number of jumps will be decreased to four (4), and the heights of jumps to be increased not less than 4”, and no more than 6”. The jump-off shall also be timed. The first round is decided

by adding the faults incurred over the course. Donkeys with clean rounds go into the jump-off. In the event of equality of faults after the first round there will be a jump-off for first place only. Other placings which tie may either flip a coin or be awarded duplicate ribbons at Show Management's discretion. After the timed jump-off the Donkey with the least amount of faults and the fastest time shall win the class. Sample In-Hand Jumping Course:

#### Sample In-Hand Jumping Course

#### 152. Game Halter Classes – Coon Jumping

- A. All Donkeys must be handled by one person only. No Helper is allowed.
- B. Jump starts at 16" and is raised 2"- 3" after every Donkey in the class jumps (or attempts to).
- C. Donkeys may be jumped by handler leading their Donkey by their side. Competitor may go over the jump with their Donkey.
- D. Jumps are to be of a breakaway type, either PVC piping or wood. If PVC is used it must not sway in the middle (1-1/2" or 2" Schedule 40 is recommended). PVC is preferred for the safety of the Donkey. Side poles (that hold the jump) should not be higher than 4 ft. tall.
- E. Donkeys must be three (3) years or older actual age. (See 21-K.)
- F. Both front and rear feet must come to a complete stop inside the 10' x 10' box before jumping. (There is no box on other side of jump.) The Donkey may not simply trot into the box and take the jump without stopping or they will be disqualified. Once completely stopped inside the box each Donkey will have 45 seconds or 3 attempts - whichever comes first to take the jump. Stepping out of the box or knocking down the bar means the Donkey cannot advance in the competition but can still place.

IN THE EVENT OF A TIE there will be a jump-off as follows:

- The bar will be lowered to the previous height the tied Donkeys both

completed.

- The Donkeys will jump again at this height. If they are both successful then the bar will be raised in increments of 2"-3" in each round until one Donkey wins.
  - If neither Donkey is successful at the new height the Judge will place the Donkey that at least tried to take the jump, displayed the most willingness to jump or had the best form.
- G. Donkeys must make a clean jump. Donkeys may rub the jump with chest or belly as long as he/she does not knock the bar down. Donkeys must land in an upright position.
- H. Donkeys are to be jumped in halters. A rope or chain under the chin on halter is allowed and is required for 1 year old and over jacks. No choke ropes over the neck are allowed.
- I. No whipping or mistreatment is allowed or entry will be disqualified.
- J. Competitor may provide their own blanket to place on the bar underneath the jump bar. The blanket cannot be put on the jump bar itself.

153. Game Halter Classes – Lead Race

- A. This is a timed event where the Donkey is led across a starting line, down the center of the arena, around pole or cone and back across the starting line. Donkey shall be led with a halter. A chain or rope under chin of halter is required for jacks 1 year and over and is optional for all others. No crops or whips are allowed.
- B. Donkeys shall be run individually; the fastest time will be the winner. Donkeys may walk, trot or lope. Competitor must come across the finish line with his/her Donkey or be disqualified.
- C. The distance between the starting line and the pole or cone shall be 75 feet.
- D. Competitors may wear any type of footwear except open-toed shoes.

154. Game Halter Class – Scramble

- A. This is a timed event. For Donkeys under 3 years of age you must

use ground poles only, no jumps.

- B. There will be three poles/cones to go around, then a jump, around a barrel and return over jump, poles/cones finishing over the start/finish line. To begin, the Donkey is led across the start/finish line either down the right or left side of pattern with twelve feet (12') between the start/finish line and the first pole/cone - with twelve feet (12') - no more than eighteen feet (18') - between each cone and barrel thereafter. There will be three poles/cones to go around then a jump, a barrel, come back over jump, poles then start/finish line. The jump is twenty inches (20") with no more than three foot (3') side poles.
- C. Fastest time wins. However, knockdowns and refusals (including stops) add 5 seconds to each infraction with three refusals and/or being off course resulting in elimination.

155. Game Halter Class – Hurry Scurry

- A. This is a timed In-Hand event.

For Donkeys under 3 years old, you must use ground poles only, no jumps.

- B. The Donkey is led across the start/finish line down the right side with twelve feet (12') between the first jump and twelve feet (12') between - no more than eighteen feet (18') - between barrel and remaining two jumps. There will be one (1) jump on the right, a barrel at the end and two (2) jumps on the left. The jumps will be set at eighteen inches (18") for the first jump, twenty four inches (24") for the second jump, twenty inches (20") for the third jump and all with no more than three foot (3') tall side poles.
- C. Fastest time wins. However, knockdowns and refusals are to be added to time. Each knockdown adds 5 seconds and refusals add 3 seconds. Three refusals and/or being off course results in elimination.

Rules 156-160 are unassigned.

161. Snigging

- A. Snigging is an Australian word for dragging a load behind an equine. As a class, snigging tests how quickly and carefully a Donkey and his handler can move a load through an obstacle course.
- B. Snigging shall be done by driving the Donkey pulling a log. The Donkey must wear a harness. The traces of the harness are attached to an evener which is attached to a log and the log is dragged safely behind the Donkey. The Competitor shall ground drive behind the harnessed Donkey. The Competitor may carry a whip but it is not required. Show Management shall provide the log attached to an evener. Remember that for safety reasons cones are used, but please think of them as trees. You must be behind your Donkey when snigging. You will be disqualified if your Donkey goes around the cones while you walk on the outside of the cones.
- C. The course for snigging is a line of five cones which the Donkey and Competitor must serpentine through, both out and back. The distance between the cones is twelve feet (12') with the start/finish line fifteen feet (15') from the first cone of the serpentine.
- D. Any gait is allowed on the course, as long as the Donkey and the load remain in control. This is a timed event with the fastest time winning the class. However, if any cones are displaced a penalty of 10 seconds is added to the time for each cone moved. If a cone is moved on both the outward and the return parts of the serpentine both incidents are penalized.
- E. Once across the starting line the handler is not permitted to move the load (log). Doing so shall disqualify the entrant.
- F. The maximum weight for the log shall be 60 pounds. Minimum weight for the log shall be 50 pounds. The log shall be 7' - 8' in length and 8" in diameter.
- G. All Donkeys must be 3 years or older for this class. Three years old actual age. (Also see Rule 21-K)

Rules 162-169 are unassigned

170. General Driving Rules – Performance Driving Classes

- A. Donkeys must be three (3) years and over to compete in any driving class and must be serviceably sound. (See Rule 21-K.)
- B. Donkeys shall compete in driving safely and securely harnessed to a vehicle. The Competitor shall be the only person permitted in such vehicle, unless more than one Donkey is hitched to vehicle, or driver

- is under twelve years of age. (See Rule 170, Section V)
- C. The Competitor must be seated comfortably in the vehicle, relaxed and effective. Either the one or two-handed method of driving is acceptable. Common to both methods, the elbows and arms should be close to the body with an allowing but steady hand enabling a consistent feel with the Donkey's mouth. Competitors should not be penalized or rewarded for using either style of driving.
  - D. Competitors should keep safety foremost in their minds. Having your Donkey under control at all times not only is a safeguard for you, but for everyone involved in the class.
  - E. All Officials and Show Management should be constantly on the lookout for unsafe actions by any Competitor or unsafe harness or vehicles and report them to the Judge. The Judge must excuse from competition an unsafe vehicle, unruly Donkey or driver clearly out of control.
  - F. It is the responsibility of each Competitor to ensure that harness and vehicle are in good repair and structurally sound.
  - G. It is the responsibility of each Competitor to ensure that his Donkey or Donkeys are physically fit to fulfill the tasks required of them.
  - H. The Competitor should strive to maintain a safe distance from other vehicles both in the show ring, in the warm-up and parking areas.
  - I. All rules of the road should be observed unless officials direct otherwise. Competitors must drive on the rail at a safe distance behind the Donkey and cart in front. Passing is permissible, but the Competitor should return to the rail as soon as possible.
  - J. Boots or wraps of any description and ear plugs are prohibited on the Donkey in the show ring.
  - K. Large classes may be split by the Judge or Show Management if conditions warrant.
  - L. Excessive use of voice, shouting or whistling to the Donkey may be penalized at the Judge's discretion. Discreet use of vocal aids is allowed.
  - M. All pleasure driving vehicles must have a basket or safe, suitable floor. Sulkies are allowed in Obstacle Driving Classes and Game Driving Classes only.
  - N. Wire wheeled and pneumatic tired wheels are permitted in all driving classes.
  - O. Competitors should strive to present appropriate turnout. "Appropriate" means a balanced, pleasing picture of Competitor, Donkey and vehicle.
  - P. Harness may be of collar and harness type or breast collar type. Martingales, overchecks, sidechecks and blinders are optional.

Cavessons or nosebands are required.

- Q. The whip must be carried in the Competitor's hand at all times. The overall length of the whip for a single Donkey should be long enough to reach its shoulder. Competitors shall be penalized for excessive use of the whip.
- R. Snaffle bits and other types of traditional driving bits are allowed. Bits may be covered with leather or rubber. Twisted, burr and wire bits of any type are not permitted. Tying down of tongues is prohibited.
- S. See Show Attire, page 11: Ring Procedures 51. A.
- T. Canter is not allowed in any driving classes for the safety of the Donkey and Competitor. You are allowed three strides to get the Donkey under control with a 5 second penalty. If your Donkey cannot be collected into a walk or trot within three strides, a disqualification results. If the Donkey breaks into a canter more than twice this would also result in a disqualification.
- U. The Donkey must never be tied or left unattended while put to a vehicle for the safety of the Donkey and Competitor. Under no conditions shall a bridle be removed from a Donkey while it is put to a vehicle. Leading a Donkey hitched to a cart with no driver in seat on show grounds could lead to elimination.

171. Clarification of Pleasure Driving Gaits:

- A. Walk - A free, regular and unconstrained walk of moderate extension is required. The Donkey should walk energetically, but calmly with an even and determined pace.
- B. Slow Trot - Should maintain forward impulsion while showing submission to the bit. It is slower and more collected, however the Donkey should indicate a willingness to be driven on the bit while maintaining a steady cadence.
- C. Working Trot - The Donkey goes forward freely and Straight; i.e. engaging the hind legs with good hock action on a taut but light rein with the overall picture being balanced and unconstrained. The footsteps of the hind feet touch the ground in the foot prints of the forefeet.
- D. Halt - Donkey and vehicles should be brought to a complete square stop without abruptness or veering. At the halt Donkey should stand attentive, motionless and straight with the weight evenly distributed over all four legs and be ready to move off at the slightest cue from the driver.
- E. Rein Back - A backward movement in which the legs are raised and set down simultaneously in diagonal pairs with the hind legs

remaining well in line to be performed in two parts: The Donkey must move backward at least four steps in an unhurried manner with head flexed and straight, pushing the vehicle back evenly in a straight line. The Donkey must then move forward willingly to the former position using quiet aids and light contact throughout.

172. Performance Driving Classes –Pleasure Driving Working

- I. Suggested widths for obstacles are eight inches (8") to twenty inches (20") wider than the vehicle track width at the ground.
- J. The Judge will assign a point value to each obstacle and points will be added to or subtracted from this score based on the Donkey's performance through the obstacle.
- K. Credit will be given to those Donkeys who negotiate, in a continuous motion, the obstacles cleanly, smoothly and alertly with style in prompt response to the driver's cues. Excessive hesitation at an obstacle will be penalized.

- L. A Donkey with major faults (knockdowns, refusals, etc.) on the course will not be placed ahead of a Donkey that worked through the obstacles cleanly. A Donkey will be penalized for touching any elements of the course and for unnecessary delay in approaching the obstacles.
- M. Off Course:
  - 1) Deviating from the prescribed order in which the obstacles are to be approached.
  - 2) Taking the obstacles from the wrong direction.
  - 3) Negotiating an obstacle from the wrong side.
  - 4) Skipping an obstacle unless directed by the Judge.
- N. The course shall be designed to require each Donkey to demonstrate the walk, slow trot and working trot somewhere between the obstacles as part of the working course with enough space provided for the Judge to evaluate the gaits.
- O. The Donkey is judged on the ease with which it maneuvers the obstacles. Knocking over an obstacle or part of an obstacle, breaking gait and disobedience are to be considered penalties. Breaking the pattern, being off course, outside assistance, breaking into a canter, failure to carry a whip, use of a tie-down and equipment failure result in elimination.
- P. Ties for first place must be broken by a drive-off. Ties for lower placings may be broken by coin flip or at Show Management's discretion or duplicate ribbons.
- Q. Suggested obstacles:
  - 1) Back through or out of obstacle
  - 2) Drive through water or simulated water
  - 3) Drive through narrow passage
  - 4) Stop, open and close mailbox
  - 5) Drive across bridge or simulated bridge
  - 6) Drive pattern created with poles/pylons (figure eight, serpentine, cloverleaf, etc.)
  - 7) Put wheel in circle, turn complete circle with Donkey not stepping on or outside of the circle
  - 8) U-turn (a three rail box with a pylon in center of opening)
- R. Prohibited Obstacles:
  - 1) Live animals and hides
  - 2) Competitor dismount
- S. The Judge has the right to alter the course for time and/or safety.

187. Performance Driving Classes – Obstacle Driving, Gambler's Choice  
(2 minute timed event)

- A. A timed driving course of unnumbered obstacles each carrying a specific point value. Each Competitor has the same amount of time to negotiate as many obstacles as possible. Each obstacle is assigned a point value according to its degree of difficulty and each Competitor tries to amass as high a score as possible within the time allowed.
- B. Cantering is not permitted. There will be a five second penalty for each time a Donkey breaks into a canter with a disqualification on the third time. (See Rule 170.T.)
- C. After passing over the starting line the Competitor may drive through the obstacles in any order and from any direction. Each obstacle may be driven twice, but not in succession. If driven a third time no points will be awarded.
- D. No obstacle may be re-driven once it has been disturbed. (Exception: obstacles which are designed to be knocked down). No points will be awarded for an incorrectly completed obstacle. If obstacle is incorrectly driven, but not disturbed, it may be attempted again.
- E. If a Donkey should refuse or run out at an obstacle without disturbing it, the Competitor may elect not to attempt it and may drive to another obstacle without penalty. The obstacle may be attempted later and if correctly driven the appropriate points will be recorded.
- F. A signal will sound at the end of the allowed two minute time and the Competitor must then exit through the finish markers when the total time on the course will be recorded.
- G. If the signal sounds when the Competitor is committed to an obstacle, the Competitor may complete the obstacle and receive the appropriate points, then proceed through the finish markers for total time to be recorded. Whether or not the Competitor was committed to the last obstacle at the signal will be left to the discretion of the Judge.
- H. Placings are determined on a high score basis with each entry getting points for the obstacles they have completed correctly. Even if some obstacles are completed incorrectly, points still count for the obstacles completed correctly. Time will decide a tie. If a tie occurs in points and time the winner will be decided by a drive-off that can be timed.

199. Game Driving Classes – Pole Bending Driving

- A. Five stakes (poles) are in a straight line with two cones at the entrance to represent the timing line.
- B. This is a timed event with the fastest Donkey and Competitor determined the winner. Knocking over a pole will constitute a five second penalty for each pole knocked over. Touching a pole is permitted.
- C. Competitors will be disqualified for not following the pattern. Canter is not allowed in any driving classes for the safety of the Donkey and Competitor. (See Rule 170.T.) You are allowed three strides to get the animal under control with a 5 second penalty.
- D. The distance between each pole is to be sixteen feet (16') measuring from the base of the cone. The distance between the first pole and the timing line is twenty feet (20') measuring from the base of the cone.
- E. Course shall be measured with a tape.
- F. The course shall be run as in the diagram. Competitors shall cross between timing cones, starting either right or left, weaving in and around each pole – leaving and returning to starting line.
- G. This class is run individually. Only one Donkey and Competitor on the course at a time.

200. Game Driving Classes – Big T

- A. This is a timed event with the fastest Donkey and Competitor determining the winner. Knocking over or moving a pole or barrel will constitute a five (5) second penalty for each pole or barrel knocked over or moved. Touching poles or barrels is permitted. Being off course results in elimination.
- B. Competitors will be disqualified for not following the pattern.

- C. The course shall be measured with a tape following the diagram below.
- D. This class is run individually. Only one Donkey and Competitor on the course at a time.
- E. Competitors cross the timing line and pass the first pole on either the left or the right and then pass the next two poles on alternate sides; i.e. if the third pole is passed on the right side, proceed to the barrel on your left – making a left turn and then a left turn around the other barrel. When returning to the timing line weave back through the three poles on opposite sides.

Note: If the first pole is passed on the right side, the two barrels will both be left turns. If the first pole is passed on the left side, the two barrels will both be right turns.

### 201. Game Driving Classes – Cones Course (Timed)

- A. Competitors follow a pattern of cones with a tennis ball on the top of each one. Each set of cones has a letter assigned to it (A. B. C., etc.). The pattern must be followed by letters. If the Competitor goes off course they are eliminated from the Class.
- B. Add five (5) seconds to the time for each cone moved or if the tennis ball is knocked off the cone.

L. Obstacle Guidelines –

The course designer should be readily available to answer questions regarding the course and be available for a walk through the course with the Competitors as well as the Judge. Ingenuity and originality in adapting and combining various obstacles both to demonstrate a Donkey’s willingness and ability to please Competitor and the audience are encouraged. However, unnatural or “horror” obstacles should be avoided and all obstacles should be safe for Competitors as well as Donkeys. The Judge has the right to alter the course for time and/or safety.

M. Suggested Obstacles:

221. Showmanship at Halter

- A. In a Showmanship at Halter class only the Competitor shall be judged. The Donkey is only a “prop” to show the ability of the Competitor but will be considered for appearance as per C-1 (below).
- B. The Show Management must post the pattern for the Showmanship Class(es) at least one hour before the class is to be held. There will be two patterns from which to choose.
  - 1) Before each showmanship class the Judge is to make sure each Competitor understands what he/she is looking for.
- C. Scoring to be as follows;
  - 1) Appearance of Donkey – 40% (overall cleanliness, grooming, condition of hooves, halter and lead should be neat, clean and in good repair.
  - 2) Appearance of Competitor – 10% Competitor’s attire (See page 11 - 51, A-1.)
  - 3) Presentation of the Donkey in the show ring – 50% (ability to lead, posing the Donkey, following posted pattern and alertness of Competitor)
- D. Whips are not allowed in Showmanship Classes.
- E. Leading – Enter the arena leading the Donkey at an alert walk in a counter-clockwise direction unless directed otherwise by the Judge. Walk on Donkey’s left side holding the lead in the right hand, near halter. The remaining portion of lead is held neatly and safely in the left hand. A tightly coiled or rolled lead shank will be considered a fault in Showmanship. The Donkey should lead readily at a walk or trot. The Donkey should not follow behind nor in front of the Competitor rather lead alongside of the Competitor.
- F. When posing the Donkey, stand toward the front facing the Donkey but not directly in front of the Donkey and always in a position where you can keep your eye on the Judge. Pose the Donkey with its feet squarely under it. Most of the showing is done with the lead strap. Touching the Donkey below the shoulder or stifle with either hand or foot will result in disqualification.

when you started pattern and set up your Donkey.

223. Instructions for Pattern #2 – Showmanship at Halter
